The Association's financial year runs April/March and apart from the fixed joining fee only the balance (by month) of the year remaining need be paid. This should be calculated on £3.50/month for UK clubs, £4.00/month for Overseas and £4.50/month for the Rest of the World. Those joining between January and March will get membership to the end of March of the following year for the annual cost. The reducing balance does not apply to renewals.
